

2025 NYS Public Safety UAS Summit

Sponsorship & Exhibitor Prospectus

Highlights from the 2024 Summit

With a new location at the NYS Fairgrounds, 2024's Public Safety UAS Summit hit record attendance with **over 250 attendees** from various public safety teams, state agencies, and first responder units all hungry to come and learn about the latest best practices and technology available in uncrewed systems.

<https://www.youtube.com/watch?v=w6tIZzLFs2w>

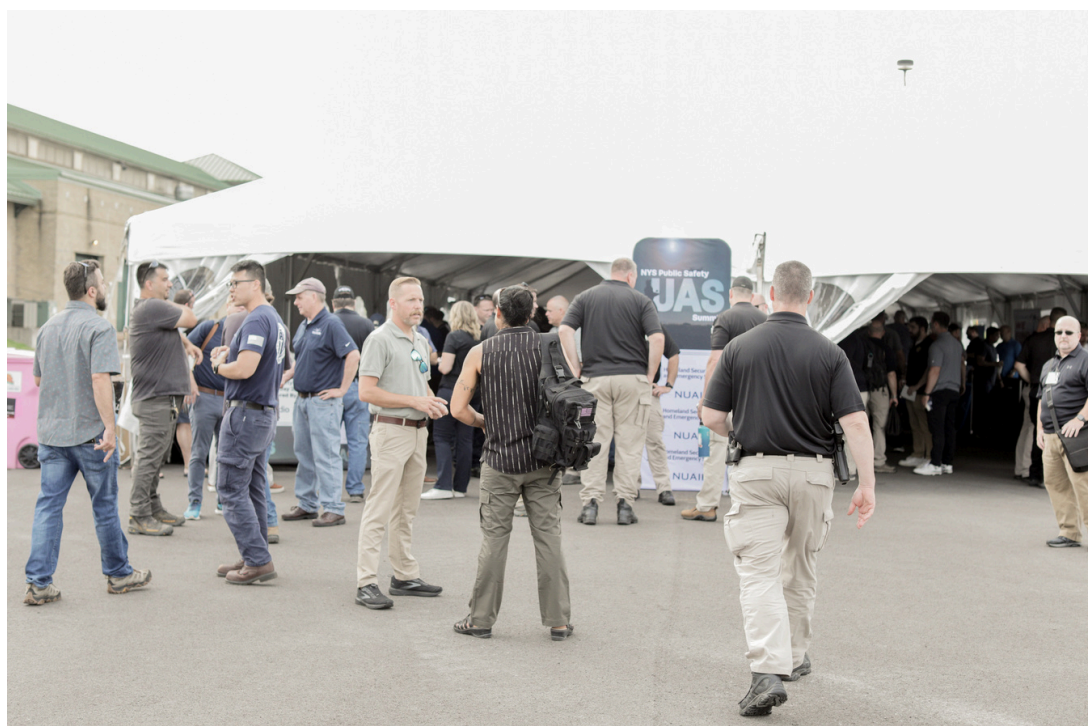

"Absolutely the best bang for buck for public safety UAS program managers and members (pilots/VOs alike). It's borderline neglectful to not take advantage of this training opportunity to ensure one's program is on the right path, following best practices, and is aware of what's going on in the field of public safety UAS operations."

"This was a superb event that was very valuable to our service. I have attended for the last three years and have begun to include others in our agency due to its impact."

"I've been recommending this to anyone with interest since the first event."

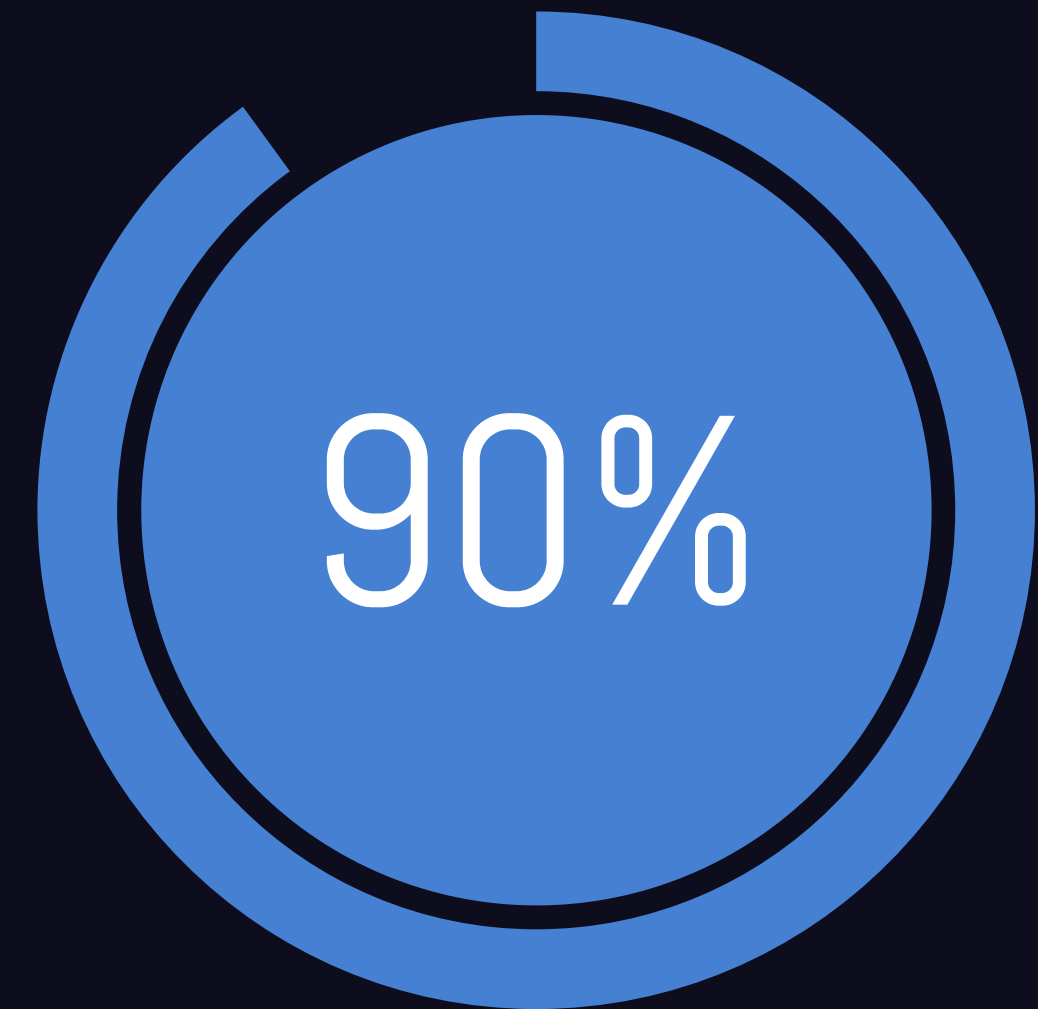

Premiere Access to New York's Finest

Vendors rated the event
4.6 out of 5 stars

and **90%** of vendors said they
would sponsor again in 2025.
